What's Inside?

Clinical Informatics Board Review and Self-Assessment is divided into three sections:

1. **Section 1: Health Information Technology**
2. **Section 2: Data Analytics**

3. Section 3: Clinical Decision Support

Each section covers the key concepts and skills that clinical informaticists need to know in order to practice effectively. The book also includes practice questions and answers to help readers assess their understanding of the material.

Who Should Read This Book?

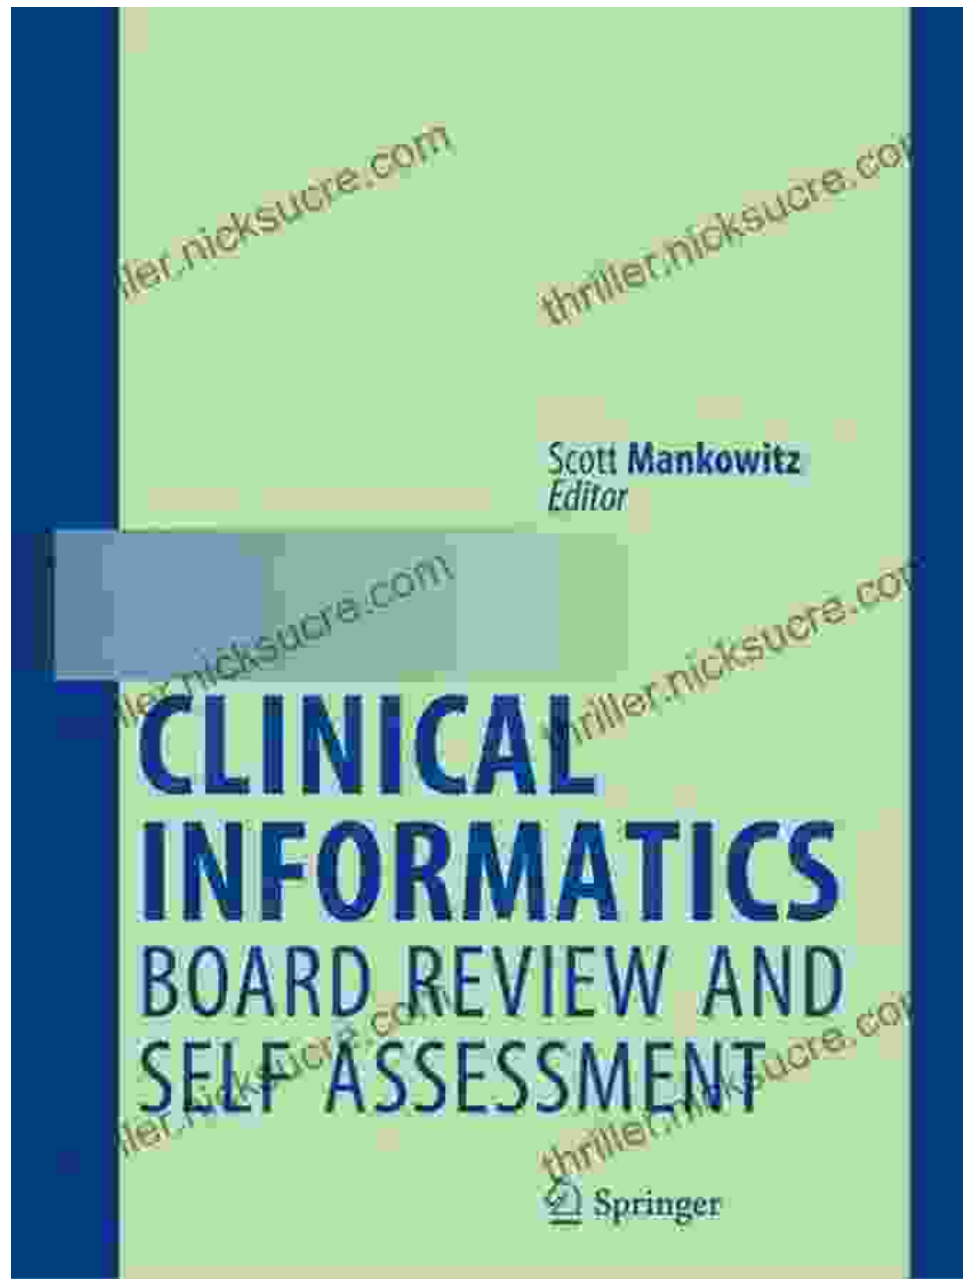

Clinical Informatics Board Review and Self-Assessment is essential reading for clinical informaticists preparing for the ABPM certification exam. It is also a valuable resource for practicing clinical informaticists who want to stay up-to-date on the latest developments in the field.

Benefits of Reading This Book

- Gain a comprehensive understanding of all of the essential topics tested on the ABPM certification exam
- Assess your understanding of the material with practice questions and answers
- Stay up-to-date on the latest developments in the field of clinical informatics
