Live To Tell The Tale is a testament to the power of hope and forgiveness. Ilibagiza's story is a reminder that even in the darkest of times, there is always hope. And it is a reminder that forgiveness is possible, even for the most heinous of crimes.

The Rwandan Genocide

The Rwandan genocide was a systematic and intentional killing of Tutsi people by Hutu people. The genocide began in April 1994, and it lasted for 100 days. During that time, an estimated 800,000 Tutsi people were killed.

The Rwandan genocide was one of the most horrific events in human history. It was a genocide that was planned and executed with unimaginable cruelty. The perpetrators of the genocide used machetes, clubs, and guns to kill their victims. They also raped and tortured their victims.

The Rwandan genocide was a tragedy that could have been prevented. The international community knew about the genocide as it was happening, but they did not do enough to stop it. The United Nations peacekeeping force in Rwanda was understaffed and ill-equipped to stop the genocide. And the United States and other Western countries refused to intervene.

As a result of the international community's inaction, the Rwandan genocide was allowed to continue for 100 days. And during that time, an estimated 800,000 Tutsi people were killed.
